Leading Child Neuro Rehabilitation Across the Lifespan of Litigation

Highly Specialist + Collaborative + Bespoke, Goal driven + Governance

- **Comprehensive solution**, combining psychological expertise with dedicated business support.
- **Highly specialist psychologists** understand the unique context of neurorehabilitation in the medicolegal sector.
- We **carefully match** each client with a psychologist whose skills align with their specific needs.
- **Tailored business support** meets the needs of case managers, young people, families, and solicitors, aligning with the litigation process.
- **Regular supervision, CPD and safeguarding training** with two designated safeguarding leads.

- We **prioritise trust and collaboration**, building lasting relationships with young people, their families, case managers, and the wider support team.
- **High rates of repeat referral** – case managers return to us.
- **High-quality communication,** referrers receive the support they need from referral to intervention.
- We stay **closely engaged** with the young person, their family, school, and support network throughout the life of the case.

- We recognise the **unique challenges** young people and their families face after brain injury.
- We integrate **cognitive, social, emotional, and behavioural interventions** within a **biopsychosocial rehabilitation model**.
- Working **collaboratively** to **identify priorities**, develop a clear, **goal-driven plan** and **measure outcomes** over time.
- **Individualised, multi-component interventions**, focusing on participation access, daily functioning, and quality of life.
- **Long-term rehabilitation** and ongoing support, help young people achieve lasting progress.

- **Transparency and accountability** through **structured reporting** and **clear communication**.
- Our reports use standardised outcome measures and goal-setting frameworks to provide **clear evidence of progress and need** within the medico-legal process.
- Structured reporting timelines ensure **consistent updates** for all stakeholders.
- **ICO-registered**, we uphold strict data security measures to protect client confidentiality and integrity.
- **Dedicated Business Team** manages non-clinical concerns, ensuring a seamless process.
